Executive Summary

Your executive summary should resemble an elevator pitch: your motivation is to quickly persuade a decision maker to get involved in your project.

- What is the purpose of your project; what problem(s) does it address?
- Why is your project important; why is it relevant?
- Who could your project help; who is your audience or customer?

The Purpose of this project is to create a personalized website for Concordia's Entrepreneurship club in order to make the club more noticeable and to show other students about it. This project is important because it is hard to show off a club and make it enticing for new recruits. This website hopes to create a way for this club to reach out to other students who may be interested in joining. It will also create opportunities for people outside of Concordia to reach out to these future entrepreneurs to make connections and maybe some offers.
